

Avikhai Elijah

Collaborative University student looking to establish experience as a product designer while prioritizing user experience. Aiming to leverage skills in systems thinking, user research and fabrication methodologies. Seeking to make a meaningful impact in the design industry by approaching complex problems and achieving actionable service improvements.

Projects

Service Blueprint for Dream Corp

Sep 2025 - Dec 2025

- Extensively mapped user journeys of current conditions in young adult housing in Toronto
- Identified trends and signals in housing conditions in Toronto
- Conducted Interviews and synthesized data into concrete motives for change
- Produced physical prototypes and models for services and conducted iterative design sessions

Human Centered Design for Client

Sep 2024 - Dec 2024

- Conducted market analysis and found gaps in product landscape
- Conducted qualitative and quantitative research in analog and digital medium
- Mapped pain points and addressed user needs
- Produced production ready prototypes addressing client needs

Work Experience

MCA Supply

Order processing, record keeping, inventory management.

Sep 2024 - Feb 2025

- Improved response times to customers ensured clear communication of expectations
- Reduced turn around times of orders allowing next day shipping and improving customer satisfaction
- Took on tasks from management to allow for multitasking and efficiency
- Supported Inter-team workflows promoting systems awareness

Westmount

Event organization and concession stand host.

April 2021.

- Implemented marketing and communication skills to increase participation and sale of concessions
- Organized and prepared event stands prior to event
- Actively engaged with 200-300 attendees daily

Skills

Industrial Design Skills

- User Research
- Journey Mapping
- Systems Thinking
- Co-design and Workshopping
- Prototyping
- Service Blueprinting
- Research Insight and Innovation

Tools/Software

- Figma, Miro, Adobe illustrator/photoshop
- Fusion 360, Blender, 3D printing, AutoCAD
- Google suite, Microsoft suite, Canva
- E-commerce platforms (Shopify, Ebay, Walmart, Amazon)
- Fabrication workshop tools/equipment

Certification/Short Courses

- WHMISS and HHPS understanding
- REB certification
- MoL: Training and skills development
- Shop safety training

Additional Endeavours

- Attending visual arts classes since 2017
- Took on leadership roles in multiple group projects in the school environment
- Assists with events and teaching opportunities at OCAD university
- 3D printing services and file configuration
